MEET MISS LILY!

This poor [emaciated, neglected girl](#) just came into rescue. She was clearly neglected by her owners and then to make matters worse, she was dumped at a local shelter. This sweet dog deserved so much better than that.

Sadly, Lily was found to be heartworm positive. Because she is so emaciated, we had full bloodwork and urinalysis done to make sure her health can tolerate heartworm treatment. Fortunately, all her tests came back great.

Please consider donating to [Voiceless-MI](#) to help with Lily's medical bills
